

**Bill Wilson****W. H. Wilson****General Contractor****SINCE 1981****“Others see problems, a General Contractor sees Solutions.”****Willbillson944@bellsouth.net****919-427-2544****About Me**

Licensed as a N.C. GENERAL CONTRACTOR in 1981 We began building Residential properties. Over the years when the Real Estate Brokerage Industry turned to Home Inspections when Real Estate was purchased or sold we began to concentrate our skills on home repairs and home projects. With more than 30 years experience in residential construction and sales we are highly efficient in addressing the concerns of the buyers and sellers in quality, professional home repairs. Inspectors and appraisers recognize the quality and experience shown by our work.

The value of knowing the North Carolina Building code is important in protecting both buyer and seller when home repairs are indicated by a home inspection report. Communication and construction experience benefit all parties during the home sale or purchase. Although it may seem a minor factor its paramount when time is of the essence and family's plans have been made. We pride ourselves in minimizing the hassle and disruption to your busy schedule.
