One call does it all at Home Inspections of NC!

FREE Radon Test
with Home Inspection

Home Inspections of NC is a STATE LICENSED; MLS LICENSED HOME INSPECTOR SUBSCRIBER. We have FULL ACCESS TO CSS LOCKBOX.

Inspections without realtor onsite. Inspections with realtor and buyer onsite and at the end of the inspection we'll explain our all findings going into reports.

We have over 25 years of construction experience, same day reports, and FREE radon testing with inspection.

Full service inspections of: *Home, Septic, Well & Termite*

Call (919) 656-0610

What clients are saying

"First Harry does such a great job explaining the defects he finds during the inspection it **saves my client money** and possibly their life. I know when I call Harry to set up an appointment, he will be there, and the home inspection will be taken care of as well as the buyer. I know I can call Harry after an inspection if we have questions about the report. Thanks Harry for all your hard work!"
*Both Conover, Realtor®/Broker In Charge
Legacy Real Estate Properties*

"As first time home buyers, we were nervous about the inspection having never gone through this process, but Harry did a great job of pointing out potential issues **and** giving us general maintenance advice. He was extremely thorough in explaining everything so I knew what to look for in the future & how to care for our home to keep it in great shape. I would recommend Harry to everyone! He left us with the peace of mind and knowing we would have **no surprises after dosing.**" *Cory V*
